

Local Author Submission Form

The Winfield Public Library recognizes the literary efforts of local authors and may include their works in the collection when possible. The Library considers local authors to be authors who live or have lived within Cowley County or neighboring counties within our SCKLS Service Area. Local authors wishing to have their work included in the MLS collections must fill out the following Local Author Submission Form. Local authors may donate one copy of their material for possible inclusion in the Library's collection. The Library Director will review the material but this does not guarantee that it will be added to the collection.
